A Global Leader in Transportation & Logistics Solutions

Datalogic is a global leader in the automatic data capture and process automation markets, specialized in the designing and production of bar code readers, mobile computers, sensors for detection, measurement and safety, RFID, vision and laser marking systems. Datalogic solutions help to increase the efficiency and quality of processes in the Retail, Transportation & Logistics, Manufacturing and Healthcare industries.

Enterprises rely on couriers to keep merchandise and materials moving efficiently while maintaining security and traceability. When merchandise is being loaded, Datalogic dimensioning solutions, sensors and vision systems track parcels onto the carrier and support exact cargo loading. Mobile computing and hand held scanners from Datalogic ensure visibility through the final details such as last minute activities with delivery confirmation and signature capture.

We have a long history of successful integrations across hundreds of systems utilized by the world's leading retailers and courier companies. Datalogic manufactures the widest range of high-performance products and solutions in the industry. Our flexible and robust identification solutions offer companies the latest in parcel sort solutions including parcel traceability, sortation solutions, inventory management, dimension, weigh & scan and hazmat label detection.

Solutions that increase throughput, decrease costs and achieve optimum efficiency for your entire supply chain
